

## Electronic Insect Killer

GA2-30

|  |
|--|
| <b>Design:</b> New and Patent design   |
| Unique design of 4 side open--maximum attraction for the flying insects.           |
| Large extractable tray,easy cleaning and maintenance.                              |
| Can be used as Glueboard insect killer   |
| With IPX4 Class water proof.   |
| <b>Surface Material:</b>   |
| Durable ABS-fire-proof plastic material for high safety.                           |
| <b>Safety:</b> GS/CE/ROHS/REACH/PAH of TUV approved.                               |
| Full protected outer mesh with GS standard marks the unit of high safety.          |
| <b>Efficiency(Attraction):</b> Exclusive UV-A of Best Efficiency of attraction.    |
| <b>Efficiency(Killing rate):</b> TUV approved Transformer ensure 100% killing rate |
